Ahead of the Unexpected[®]

Why Buy a Protection Plan?

A vehicle is more than transportation – it keeps your life moving. No matter where you're going, you need to know you can count on it to get you there safely. Like anything mechanical, automobiles are made up of thousands of components that get worn down or break and when they do, the repair costs can be more than you expected. Whether your vehicle is **gas**, **electric** or a **hybrid**, repair costs can be significant and they never come at a good time.

Proguard Fact:

Repairs Paid Directly

You don't need to reach into your wallet because we pay the repair facility directly and promptly to make sure you're back in your vehicle as soon as possible.

Why Proguard?

- We design our plans to **protect consumers** and **cover everything** from the core components to the advanced technology that makes up so much of today's vehicles.
- We make **claims service our top priority** and are committed to providing the help you need to get back on the road quickly if you have a mechanical issue.
- We provide **day one coverage** upon acceptance of your application.
- Every plan includes a **(((SiriusXM))) 3-month trial subscription** on eligible vehicles factory-equipped with SiriusXM.
- We have **EV and Hybrid coverage** that includes all the major components that are expensive to replace.
- We offer a **nationwide network of Proguard Select repair facilities** that we trust to provide the best standard of care or you can go to your local mechanic, either way we've got you covered.
- We offer **transferable protection** if you sell the vehicle, extending the value of your purchase.
- We are **fully insured** by A-rated insurance companies who A.M. Best considers excellent in financial strength and their ability to pay claims.

Average Cost of Repairs

Proguard protection plans are typically less than the cost of a major component failure, which can set you back several thousands of dollars. Wouldn't you prefer to build the cost of peace of mind into your financing rather than risk being hit with an unexpected repair bill if you have a mechanical breakdown?

Engine Control Unit \$2,875 >

Touchscreen Display \$3,250 >

Air Conditioning \$1,625 >

Sunroof Motor \$800 >

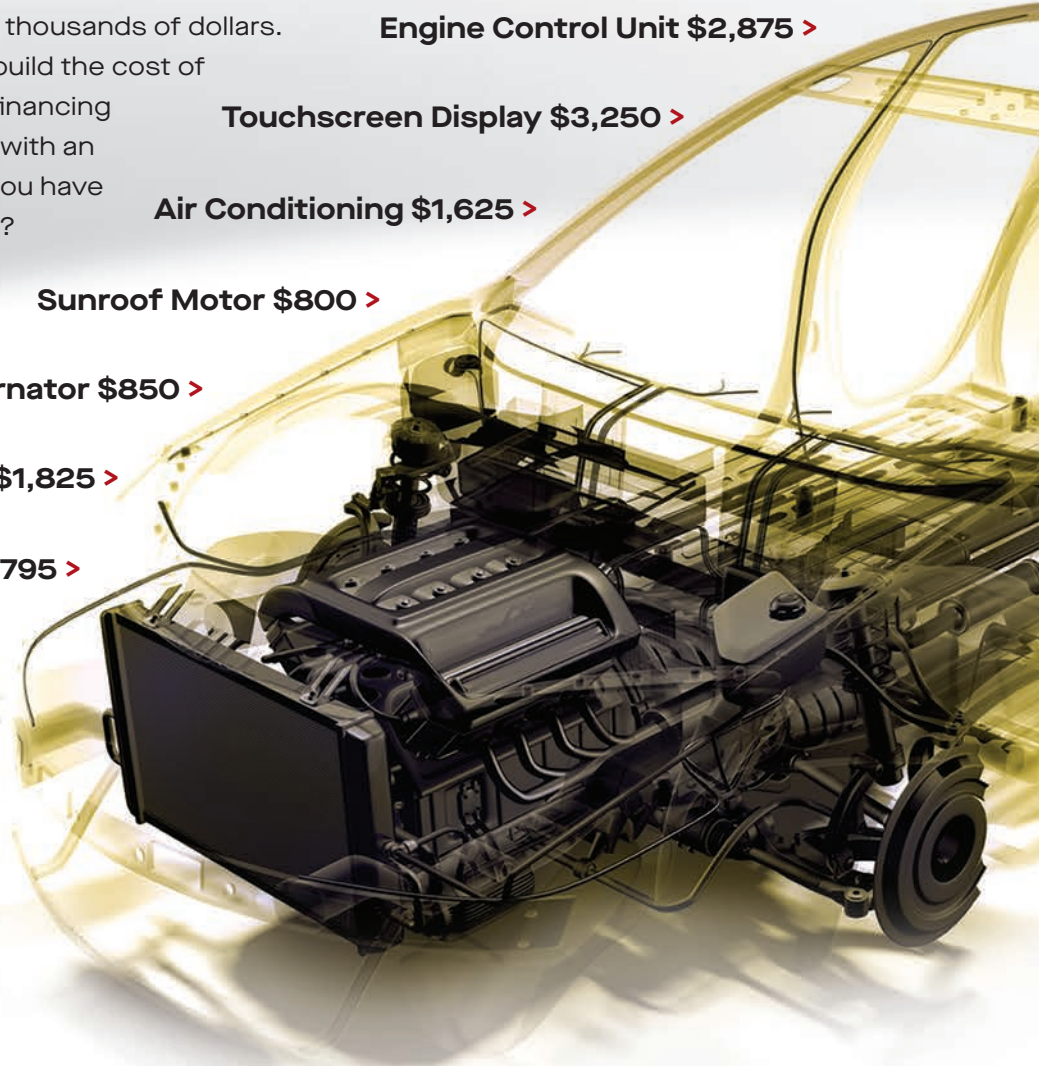

Alternator \$850 >

Power Steering \$1,825 >

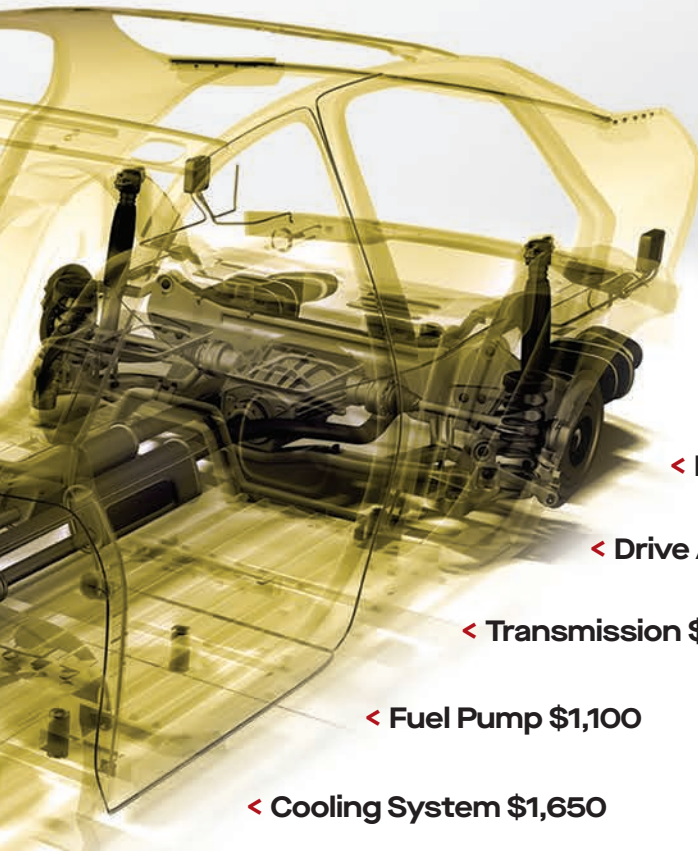

Starter Motor \$795 >

Head Gasket \$3,700 >

Engine \$5,650 >

EV/HYBRID COVERAGE

Transmission
\$5,250

Propulsion Battery
\$9,500

Electric Motor
\$5,135

< Brake Calipers \$1,175

< Drive Axle \$1,425

< Transmission \$4,525

< Fuel Pump \$1,100

< Cooling System \$1,650

< Anti-Lock Brakes \$2,725

Proguard Fact:

We Cover What Breaks

Whether your vehicle is powered by gas, electricity or is a hybrid, it's a complex machine with parts that are eventually going to wear down. While other protection plans omit the components most likely to fail, Proguard includes them so you are not out-of-pocket.

Proguard 1

Proguard 1 covers the primary components of the powertrain (the transmission, engine, and differential) for most higher mileage vehicles up to 200,000 miles at time of purchase. These components are more likely to break and when they do, are the costliest to repair. This is a Limited Liability product, with limits to the amount paid out for covered components. It is the minimal protection we offer so for more peace of mind, consider Proguard 2.

Differential: All internally lubricated parts, Bearings, Center support bearing, Differential housing, Ring and pinion gears, Spider and side gears.

Engine: Gas/Diesel – All internally lubricated parts, including Exhaust manifold, Timing chain and gears, Timing belt. Engine block is covered with the failure of an internally lubricated part.

Four and AWD: All internally lubricated parts of the transfer case including Bearings, Bushings, Chains, Gears, Sleeves, Sprockets.

Seals and Gaskets: Cylinder heads, Intake manifold (all others in conjunction with a covered component repair).

Transmission: Automatic/Manual; All internally lubricated parts including Electronic switches/solenoids.

Labor on all covered repairs

*

Proguard 2

Proguard 2 includes the powertrain plus the cooling system, fluids, turbo/supercharger, and EV/Hybrid components for most vehicles up to 175,000 miles at time of purchase. Should one or more of these components break down, we will pay up to the Actual Cash Value of the vehicle in claims so you can be confident that you are covered. The plan includes 24/7 roadside assistance and towing to get you help wherever and whenever you need it.

Cooling System: Mechanical water pump, Radiator and Thermostat.

Differential: All internally lubricated parts, Bearings, Center support bearing, Differential housing, Ring and pinion gears, Spider and side gears.

Drive Axle: CV joints, Drive shafts, Universal joints.

Engine: Gas/Diesel – All internally lubricated parts, including Exhaust manifold, Timing chain and gears, Timing belt. Engine block is covered with the failure of an internally lubricated part.

EV/Hybrid: Electric traction motor, Electronic transmission/E-CVT transaxle, Power electronic controller (electronic motor).

Fluids and Filters: Any fluids and filters required due to a covered component failure (excludes refrigerant).

Four and AWD: All internally lubricated parts of the transfer case including Bearings, Bushings, Chains, Gears, Sleeves, Sprockets.

Seals and Gaskets: Cylinder heads, Intake manifold (all others in conjunction with a covered component repair).

Transmission: Automatic/Manual; All internally lubricated parts including Electronic switches/solenoids.

Turbo/Supercharger: (OEM only) All internally lubricated parts, Bearings and housing, Shafts, Vanes, Wastegate (required charge applies).

Diagnostics: For each covered claim, first hour is covered.

Labor on all covered repairs

24 Hour Roadside Assistance and Towing

- Battery service
- Emergency towing service
- Emergency fuel and fluid delivery service
- Flat tire service
- Lock-out service

*

Proguard 3

Proguard 3 serves as the standard for which all plans aspire, covering everything in Proguard 2 plus ABS, air conditioning, braking, cooling, fuel system, electrical system, steering and suspension for most vehicles up to 150,000 miles at time of purchase. The plan also includes many Advanced Electrical components (door, power window and seat switches) and Advanced EV/Hybrid (Electronic transmission/E-CVT transaxle, Power electronic controller and Propulsion battery) components that are very costly to repair. You also have the benefit of rental car/rideshare reimbursement and trip interruption coverage to minimize out-of-pocket expenses if your vehicle is in the shop for repairs.

Includes all Proguard 2 coverage plus the following:

ABS Brakes: Accumulator, Electronic control processor, Hydraulic pump, Isolation dump valve, Motor assembly, Pressure modulator valve, Wheel speed sensors. (ABS Brakes not available on 3 or 6 month agreements).

Advanced Electrical: Ambient temperature sensor, Convertible top motor, Door lock actuators and switches, Electronic ignition module, Electric water pump, Liftgate motor and actuator, MAP sensor, Mass Air Flow sensor, Oxygen sensors, Power mirror motors and switches, Power sliding door motors, Power window motors, switches and regulators; Seat motors and switches, Sunroof motor, TPMS sensors (Advanced Electrical not available on 3 or 6 month agreements).

Advanced EV/Hybrid: DC/DC converter, Electronic transmission/E-CVT transaxle, Extended range drive transmitter, EV/HV brake servo, High voltage A/C compressor, Onboard battery charger, Power electronic controller (electronic motor), Propulsion battery, Thermal cooling system.

Air Conditioning: Accumulator, Clutch, Compressor, Compressor clutch bearing, Dryer/receiver, Evaporator, Expansion Valve, Front and Rear condenser, Orifice tube, Plenums and air ducts, POA valve, Evacuation and Recharge (only in conjunction with a covered repair).

Brakes: Booster and Valve, Calipers, Hydro booster, Master cylinder, Power vacuum assist, Steel brake lines and hoses, Wheel cylinders.

Cooling System: Electric radiator fan motor, Fan and clutch, Heater core.

Electrical System: Alternator, Front and Rear wiper motor assembly, Rear window defroster switch, Starter motor and drive assembly.

Engine: Flywheel/Flexplate

Fluids: Refrigerant

Fuel System: Fittings, Fuel lines, Fuel pump module, Primary fuel pump.

Steering: Gear box, Power steering pump, Rack and pinion, Tie rod ends, Upper and lower control arms, shafts and bushings.

Suspension: Air suspension compressor, Leaf and coil springs (only if broken), Pitman arms, Spindles, Upper and lower ball joints, Wheel bearings.

Turbo/Supercharger: (OEM only) All internally lubricated parts, Bearings and housing, Shafts, Vanes, Wastegate (required charge applies).

Rental Car/Rideshare Reimbursement

Trip Interruption: Meals and lodging reimbursement.

Ask about adding our  Tech Package to your plan.

*

Proguard 4

Proguard 4 is for the person looking for more peace of mind as it covers everything in Proguard 2 & 3 plus a comprehensive list of costly components that are most likely to fail. Included are the engine and transmission, fuel injectors and cruise control assembly for most vehicles up to 125,000 miles at time of purchase. Additional Advanced Electrical (including the Engine Control Unit, Powertrain Control Module and Body Control Module) components are included, in addition to highly used interior and exterior items such as the power trunk release motor and a multitude of sensors that are relied on to keep your vehicle running properly.

Includes all Proguard 2 & 3 coverage plus the following:

Advanced EV/Hybrid: DC/DC converter, Electronic transmission/E-CVT transaxle, Extended range drive transmitter, EV/HV brake servo, High voltage A/C compressor, Onboard battery charger, Power electronic controller (electronic motor), Propulsion battery, Thermal cooling system.

Brakes: Backing plate, Parking brake control, Pedal/Lever, Pressure differential switch, Vacuum booster pump.

Cooling System: Bearing and pulley, Blower motor resistor, Blower motor switch, Coolant recovery tank and reservoir, Heater blower motor, Heater control valve, Serpentine belt tensioner.

Drive Axle: Manual and electronic locking hubs.

Electrical: Alternator pulley and bracket assembly, Body control module (BCM), Cruise control assembly, Drive-by-wire throttle, Emergency warning flasher switch, Engine control unit (ECU), Headlamp dimmer switch, Headlamp switch, Homelink wireless control system (OEM only), Horn, Idle air control motor/valve, Ignition coil, Ignition coil pack, Ignition distributor, Interior light switches, Keyless entry transmitter and receiver, Neutral safety switch, Powertrain control module (PCM), Power trunk release motor, Stop lamp brake switch, Trunk pull down motor, Turn signal switch, Variable valve timing solenoid (VVT), Washer fluid pump and switch, Wiper module and delay switch.

Engine: Air injection pump, Engine mounts, Oil pan, Timing tensioners/guides.

Fuel System: Fuel injection control module, Fuel tank, Injectors, Pressure regulator, Secondary and High pressure fuel pump, Vacuum pump metering valve.

Interior/Exterior: Hood/Trunk/Hatch struts and hinges, Washer fluid exit ports.

Sensors: BAP, Camshaft position, Coolant level, Coolant temperature, Crankshaft position, Fuel injection, Fuel level, Heated oxygen, Intake air temperature, Knock, Neutral/Park position, Oil temperature, PFE, Pressure (HVAC), Ride height, Temperature sending unit, Throttle position, Vehicle speed sensor.

Steering: Idler arm and bushings, Power steering pump pulley and bracket, Steering shaft pivot joint, Tie rod sleeves.

Suspension: Stabilizer bar links and bushings, Steering knuckles, Strut bars and bushings, Torsion bar mounts and bushings.

Transmission: Transmission mounts, Transmission oil pan.

Turbo/Supercharger: (OEM only) All internally lubricated parts, Bearings and housing, Shafts, Vanes, Wastegate (no required charge).

Ask about adding our  Tech Package to your plan.

* 

Proguard 5

Proguard 5 is the plan of choice for those who want the ultimate in protection. Our exclusionary plan mirrors the manufacturer's basic factory warranty, covering almost every component for most vehicles up to 100,000 miles at time of purchase. It includes **(SiriusXM)*** 24/7 roadside assistance, rental car/rideshare reimbursement, trip interruption coverage and the option to add the iQ Tech Package to your plan. Nearly everything is covered, except for a few components, such as:

- Wear and tear items (tires, brakes, shock absorbers and struts)
- Safety (airbags and seatbelts)
- Emissions (catalytic converters and purge valves)

Extended Factory Coverage - we pick up where the manufacturer left off

Even if your vehicle is covered under the manufacturer's warranty, Proguard offers you a way to extend your protection. We give you the level of coverage you need plus all the benefits of Proguard Protection Plans for a lot less money than what the manufacturer offers.

For vehicles that are still under the manufacturer's limited warranty, you can extend the protection and get the additional coverage and benefits of a Proguard Protection 3, 4 and 5 Plan at a lower cost. Ask your dealer if your vehicle is eligible.

With most manufacturer limited warranties, basic coverage ends well before the powertrain coverage does, leaving you vulnerable to high ticket repair costs during that window. Our Xtend Wrap coverage extends the life of your manufacturer's basic coverage to match the powertrain so those components are not left unprotected.

Tech Package

Today's vehicles rely on many smart technology components instead of mechanics to operate including the Adaptive cruise control, Adaptive lighting control actuators, motors and sensors; Automatic start/stop sensor, Blind spot monitoring control module, Bluetooth module and microphone, Front, side view, back-up cameras; Heads-up display (HUD), Keyless access, Lane departure warning sensors, Navigation and touchscreen display unit, Parking aid sensors, Power liftgate/trunk motors and sensors, Push to start ignition module, Rear entertainment system (including display screens), Rearview video mirror, Seat heater elements and ventilated seat blower motors, Self-parking system control module, Tire pressure monitoring system (TPMS), USB ports, Vehicle hot-spot/cellular transceiver and Wireless signal receiver including Wi-Fi. These must-have items are made up of complex technology components that can cost several thousand dollars to replace and are rarely covered under a protection plan. For a fraction of the price to repair them, you can add the iQ Tech Package option to Proguard 3, 4 and 5 plans. Ask your dealer for details and pricing to protect the equipment you rely on for comfort and safety.

Peace of Mind Guaranteed

Proguard is a family-owned business that has been serving the automotive industry for over seventy years. We are fully insured and A.M. Best Company has rated our ability to pay claims as being excellent. If you have a problem with your vehicle, we will do everything we can to get you back on the road as soon as possible. If you have any questions or concerns, contact us at 877.474.9462 or wecare@proguardautomotive.com and let us prove to you that we take your trust very seriously.

At Proguard, our belief is that to be successful you must be honest, committed and deliver on your promises. We will do so with quality products, unparalleled service and the guarantee that we will handle each and every customer as if they were a member of our family. What we offer is the peace of mind of knowing that your vehicles and the precious cargo they carry are completely protected with Proguard.

Have a Claim? No Problem!

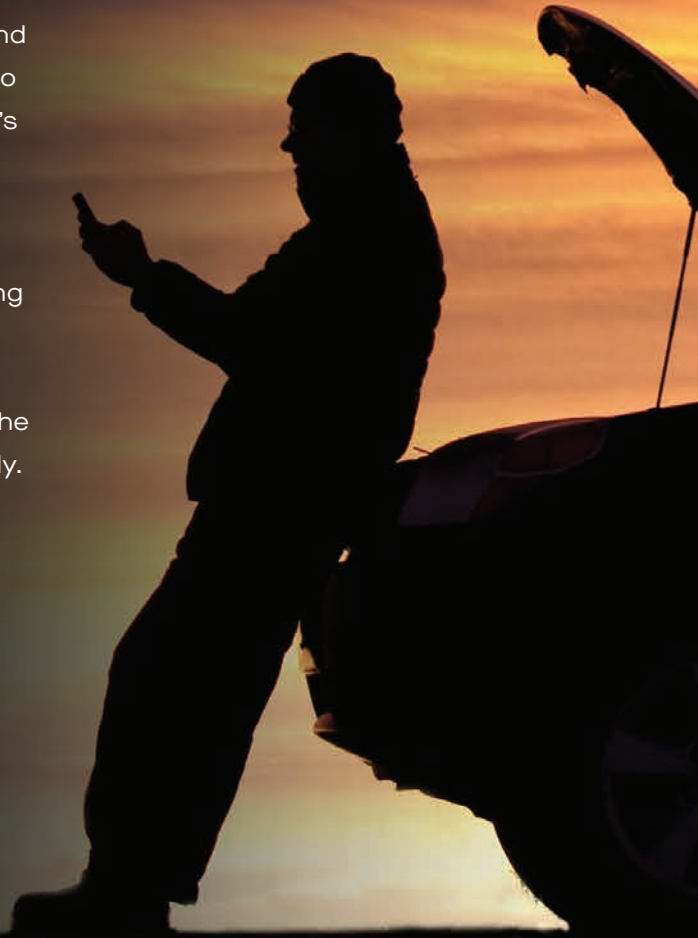

Wherever you are, call us and we can recommend a **Proguard Select** repair facility. If you'd prefer to take the vehicle to a facility of your choice, that's perfectly fine with us.

Drive, or if necessary, have your car towed to your service center. Not all plans include a towing benefit so check with us first if you are unsure.

Have the repair facility contact us to authorize the repair and once approved, we'll pay them directly. That's it!

If you have any questions, we're here to help.

Call us at 877.474.9462 or
visit **proguardautomotive.com**.
