

WARRANTY DEDUCTIBLE

We will pay your manufacturer's Warranty deductible charges less the Deductible of this Contract.

TRAVEL AND LODGING

We will reimburse You up to \$50 per day to a maximum of \$200 reimbursement for expenses for food and lodging if Your Vehicle is disabled due to a Covered Breakdown, provided such failure occurs at least 150 miles from Your residence

PROTECT YOURSELF FROM THE UNEXPECTED

Planning ahead starts now. When you purchase a pre-owned vehicle, you most likely budget for all the associated expenses, such as, car payments, insurance, and taxes, but most used vehicles also require a few mechanical repairs down the road. With the high cost of everything, even a minor breakdown could have a major impact on your budget..

TAKE A LOOK AT THESE ESTIMATED COSTS FOR TYPICAL REPAIRS.

- Constant Velocity Joint - \$305
- Water Pump - \$455
- Motor Mounts - \$490
- Cylinder Head Gasket - \$855
- Timing Chain - \$950
- Engine Overhaul - \$3,545
- Transmission Overhaul - \$2,595

PARAMOUNT SECURITY PLUS

PARAMOUNT SECURITY PLUS:

Includes all items in Standard Security Plus in addition to the below items.

1. Air conditioning/heating components:

Compressor, compressor clutch assembly, condenser, condenser fan and motor, evaporator, expansion valve, heater control valve, heater core, orifice, pressure regulator assembly, receiver dryer/accumulator, temperature control programmer and module. *

2. Brake components:

Brake booster, compensating valve, disc brake calipers, hydraulic lines and fittings, hydro boost and accumulator, proportioning valve, master cylinder, wheel cylinders. *

3. Cooling system components:

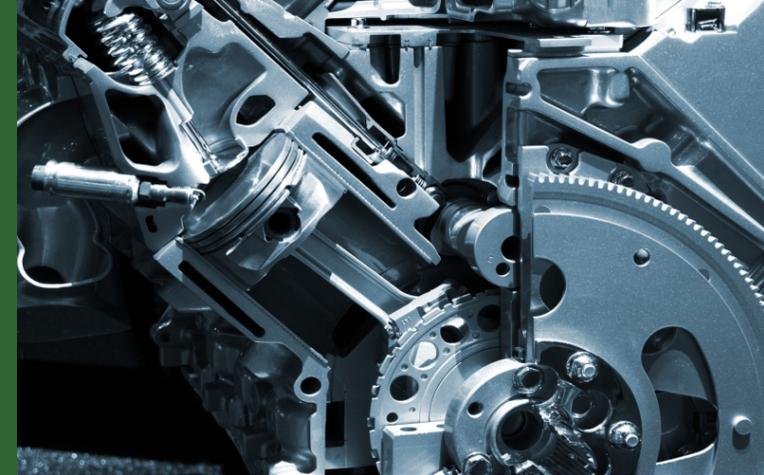

Engine fan, engine fan clutch, radiator. *

4. Electrical components:

Alternator, alternator voltage regulator, automatic temperature control module, blower fan and motor, convertible top motor, cruise control actuator/servo, cruise control vacuum motor, distributor, electric fuel pump, engine cooling fan motor, engine cooling fan temperature sensor or switch, horn, ignition coils, manually operated switches, power antenna motor, power door lock actuator, power mirror motor, power seat motors, power window motor, retractable headlamp motor, starter drive, starter motor, starter relay, starter solenoid, sunroof motor, windshield washer pump, wiper motor. *

5. Electronic components:

Cruise control computer, electronic ignition module and pick-up, electronically controlled transmission & transfer case computer and sensors, electronically modulated suspension computer, compressor and sensors, engine control computer and sensors. *

6. Fuel system components:

Diesel fuel injection pump, fuel injectors, fuel pressure regulator. *

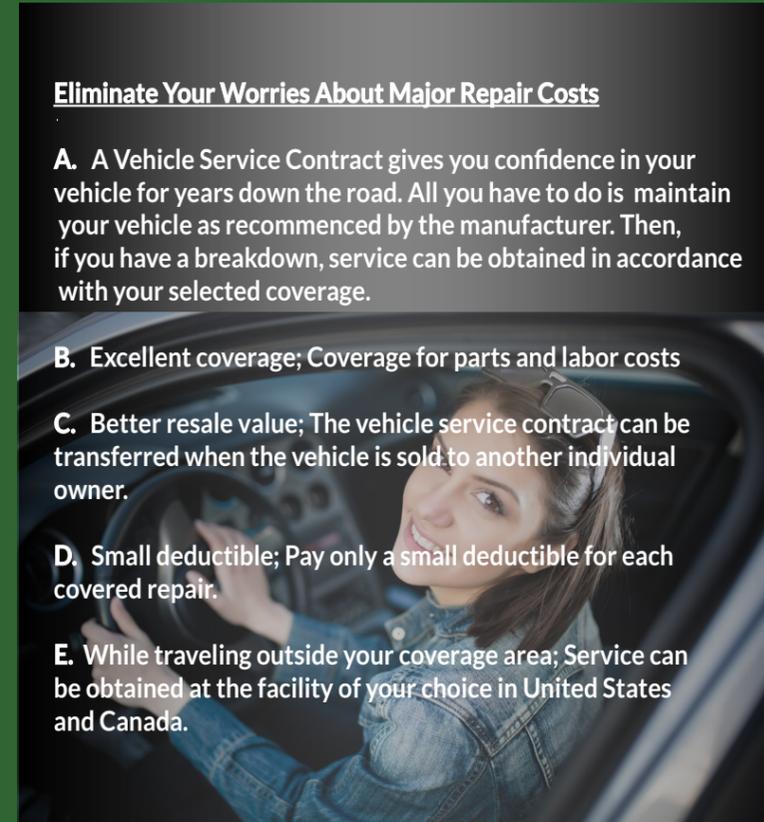

7. Steering components (including four-wheel steering):

All internally lubricated components within the steering gear box, rack and pinion, and pump including: valves, gears, and bearings. Steering gear box, rack and pinion, and pump housing, but only if damaged as a direct result of a Breakdown of a Covered steering component. In addition, the following external steering parts: Center link, idler arm, pitman arm, steering knuckles, tie rod ends, tie rod adjustment sleeves. *

8. Suspension components (front and rear): Bushings, control arm shafts, kingpins, links, lower ball joints, radius arms, spindle, spindle support, springs, stabilizer bars, steering knuckle, torsion bars, upper ball joints, upper and lower control arms and wheel bearings. *

Eliminate Your Worries About Major Repair Costs

- A. A Vehicle Service Contract gives you confidence in your vehicle for years down the road. All you have to do is maintain your vehicle as recommended by the manufacturer. Then, if you have a breakdown, service can be obtained in accordance with your selected coverage.
- B. Excellent coverage; Coverage for parts and labor costs
- C. Better resale value; The vehicle service contract can be transferred when the vehicle is sold to another individual owner.
- D. Small deductible; Pay only a small deductible for each covered repair.
- E. While traveling outside your coverage area; Service can be obtained at the facility of your choice in United States and Canada.

STANDARD SECURITY PLUS

1. Axle assembly components:

(front, four-wheel, and all-wheel drive)
All internally lubricated components within the drive axle housing, Drive axle housing, if damaged as a result of a Breakdown of a Covered drive axle assembly component. *

2. External drive axle parts:

Axle shafts, center support bearing and mount, constant velocity joints and boots, drive shaft, locking hubs, universal joints and flex discs, viscous coupling. *

3. Engine components:

All internally lubricated components: Camshaft, camshaft bearings, connecting rods, connecting rod bearings, crankshaft, crankshaft bearings, freeze plugs, lifters, mechanical fuel pump, oil pump, oil pump gears, oil pump shaft, pistons, piston rings, push rods, rocker-arms, rocker arm shafts, rocker arm pivots, timing chain, timing gears, timing chain guides, valves, valve lash adjusters, valve seats, valve guides, variable valve timing parts, and wrist pins. Cylinder head, engine block, or rotor housing: if damaged as a direct result of a Breakdown of a Covered engine component. *

4. External engine parts:

Cam/valve covers, crankshaft pulley, engine mounts, engine oil reservoir, engine oil reservoir pump, equipment drive shaft, exhaust manifolds, flex plate, flywheel, harmonic balancer, intake manifold, intercooler, oil pan, pulleys, ring gear, timing cover, timing belt, timing belt tensioner, timing gears, thermostat, turbocharger, turbo flexplate, turbo wastegate, vacuum pump, water pump. *

5. Transmission (automatic) components:

All internally lubricated components: Bands, bearings, carrier, drums, gears, governor, hubs, pump, pump housing, servos, shafts and valve body. Transmission case: if damaged as a direct result of a Breakdown of a Covered transmission component. External transmission parts: Torque converter, transmission mounts, vacuum modulator. *

6. Transmission (manual) and transfer case components:

All internally lubricated components: Bearings, gears, hubs, shafts, shift rails, shift forks, synchronizers. Transmission and transfer case: if damaged as a direct result of a Breakdown of a Covered transmission or transfer case component and transmission mounts. *

* Seals and Gaskets are only covered when required for a covered repair.
